*We'd like your feedback on the service you received from the Missouri Department of Natural Resources. Please consider taking a few minutes to complete the department's Customer Satisfaction Survey at <https://www.surveymonkey.com/r/MoDNRsurvey>. Thank you.*

As flooding continues across our state, the University of Missouri recognizes the need for educational resources to help those whose lives and properties are in peril. Here is a brief video that guides Missouri's agricultural producers to information prepared by MU Extension specialists that will assist them in making informed decisions for current and continued recovery from flooding and wet-weather related issues.

Please circulate to your farm producer contacts and others. Thank you. <https://www.youtube.com/embed/vaA-Xkl0aHM>
