

**N340 Cover Crop  
Payment Acknowledgement Form**

Payment for the N340 Cover Crop practice funded through the Missouri Department of Natural Resources, Soil and Water Conservation Program, can be issued after no-till planting of the production crops into the cover crops or after May 1 if the production crop has not yet been planted.

If the production crop following the cover crop has not yet been planted prior to payment of the cover crop practice, the production crop must still be planted using a no-till system on the contracted acres. Applicable no-till equipment is listed in standard 329 for Residue and Tillage Management No-Till.

By signing below the operator acknowledges that failure to comply with the no-till requirement of the production crop into the cover crops, will result in the operator being required to repay the full amount of cost-share funds received for this practice.
