Subject: RE: State Provided Computers

ITSD is in the process of installing new computers in SWCDs across the state. All SWCD employees whose salary is provided with state funds will receive a new computer with windows 10. As ITSD brings new computers to your district they will be removing all old state provided computers in the SWCD. In some cases where the number of SWCD employees has been reduced through attrition the number of state provided computers will also be reduced. This will result in some counties receiving fewer new computers than they had previously. ITSD will also provide computers to the FOSA shared employees that have indicated they would like a state provided computer. The computers for the FOSA shared employees in most cases will not be delivered at the same time as the other computers in the office but should be delivered within 30-45 days. If you have any questions please contact your district coordinator.

Thanks

Thank you.
