

2025 Soil & Water Conservation Poster Contest Theme:

“Home Is Where the Habitat Is”

Basic Topics you may want to research are:

- What is a habitat? Name different types of habitats
- Reasons habitats undergo changes
- How can you help restore & expand natural habitats?
- Habitats provide everything an organism needs to survive, including food, water, shelter & suitable environmental conditions
- Animals in a habitat have specific adaptations that help them survive in their environment

I believe our biggest issue is the same biggest issue that the whole world is facing, and that's habitat destruction.
-- Steve Irwin
