The National Association of Conservation Districts (NACD) is providing grant funds to soil and water conservation districts across the nation to be used to hire staff to assist with implementing conservation programs. Information regarding this grant is attached. MASWCD, NRCS and Program Office staff has decided to submit the following soil and water conservation districts in Missouri to receive this grant. The districts chosen are Stoddard, Dunklin and Polk. These districts were selected based on their EQIP workload. The grant is for one year with NACD and the Program Office providing the funds for the employee's salary, benefits and travel expenses.

Please review the attachments as soon as possible and let your district coordinator know by January 22nd if your district is interested in this grant opportunity. If you have any questions please contact your district coordinator.

Thank you.
