Subject: Certified Conservation Planner

All,

The Soil and Water Program Office was recently notified by NRCS that they are in the process of trying to secure training courses required for the certified conservation planning classes in Missouri. We have been told by NRCS their staff would have first priority for attending these classes. We have also been told there maybe openings for SWCD staff in some of the classes. NRCS has asked that we provide them a list of SWCD employees who would like to pursue the full certified conservation planner training curriculum and certification and either remain a certified conservation planner or become certified conservation planners.

Again space for SWCD staff will be limited for these classes. Please discuss with your board and if you are interested in attending these classes and maintaining your certified conservation planner status, or becoming a certified conservation planner please email Jim Boschert, at jim.boschert@dnr.mo.gov by February 28th. Thank you.

Thank you!

Soil and Water Conservation Program

We'd like your feedback on the service you received from the Missouri Department of Natural Resources. Please consider taking a few minutes to complete the department's Customer Satisfaction Survey at <https://www.surveymonkey.com/r/MoDNRsurvey>. Thank you.
