---

Good morning,

Please see the announcement below from the Land Improvement Contractors of America (LICA) regarding a streambank field day.

Thanks.

*Please take a few minutes to complete our [Customer Satisfaction Survey](#). Thank you.*

**You're Invited:**

**Stream Bank Conservation Showcase**

**July 22, 2026**

**Linn, MO**

---

**We'd like to invite you to join us as a Conservation Partner at Missouri LICA's Stream Bank Conservation Showcase — a one-day field event bringing together landowners, agency partners, elected officials, agricultural professionals, and conservation advocates.**

**Partners in Conservation Day**

**Wednesday, July 22, 2026 · Linn, Missouri**

This is your opportunity to see stream bank stabilization in action — and to connect with the people and organizations working to protect Missouri's farmland and waterways.

**Why It Matters**

Stream bank erosion sends topsoil, nutrients, and fertilizer investment downstream — out of the field and into the waterway. Stabilization keeps dirt on the farm, protects water quality for downstream communities, and restores habitat for Missouri fisheries. The cost-share program makes it affordable.
