N340 Practice Limit Change

S **Soil & Water Conservation Program**
To: DNR.Soil and Water Conservation Districts staff; Soil & Water Conservation Program Tue 7/2/2024 9:35 AM
Cc: DNR.MGS SWC Staff

Good morning.

At the recent Commission meeting on June 12th the Commission voted to move to an annual limit instead of a lifetime maximum on the N340 Cover Crop practice. During the meeting, the decision was to finalize the amount at the August 14th meeting. We are aware this may cause an inconvenience in some districts with sign ups early in FY25 and wanted to make all districts aware of the change as soon as possible. We would like to encourage the districts not to submit N340 contracts until after the August meeting and the annual limit amount is finalized. If contracts are submitted before the August meeting, the contract will be reviewed using the current policy in place and a note should be placed on the contract stating: Submitting contract prior to August 14, 2024 Commission meeting. This is so practice maximums can be accurately evaluated.

Also, how the drought variances will apply to the new maximums, will be addressed at the August commission meeting as well.

We will notify all districts with the final adopted policy as soon as possible.

Any questions please contact your District Coordinator.

Thank you,

Soil & Water Conservation Program
