Subject: Policy Variances in Response to Executive Order 22-04

Good afternoon.

This a reminder that all cost share contracts utilizing a variance for drought practices must use “Executive Order 22-04 Drought” note type in MoSWIMS when entering in a contract. If a district did not enter the “Executive Order 22-04 Drought” note when the contract was created a note can be entered at any time after contract approval. A report is generated from the “Executive Order 22-04 Drought” note type on a weekly basis and provided to the Governor’s office. The Governor is very interested in the amount of cost share funds obligated to drought assistance across the state. For additional drought information and policy variances please see the link below to Memo 2023-005.
