Good afternoon.

MoSWIMS will be locked at 9:00 p.m. tonight for updates. It is anticipated the system will be unlocked by 8:00 a.m. tomorrow morning. A statewide email will be sent out once the system is unlocked and available for use. Following are the updates being made:

1. Changes to contract language regarding cultural resources. The following statement has been added to the end of item #8 on page 1 of 2 on the contract: "The area where the practice is being implemented has not been reviewed for any impacts the practice may have on cultural resources. Additional information is available upon request if the landowner wishes to have a cultural resources evaluation completed." Item #6 on page 1 of 2 on the contract was reworded to make space for the additional cultural resources language. A memo will be sent out soon that will provide more information about this change.
2. Removal of the generic HUC code 99999999-9999. This code was used in transition to tracking 12-digit HUC's and is no longer needed.
3. Removal of "Landowner/Operator Authorization" from the document type dropdown. That form was replaced by the Cooperator Authorization form and is no longer needed.

If you have any questions, please contact your district coordinator.

Thank you,
