Subject: Issues with FOTG Section 4 Document Accessibility

Missouri Conservation Team,

Due to national updates, some documents in Section 4 of the Field Office Technical Guide are currently not accessible. While we wait for this problem to be resolved, if you incur issues downloading or opening documents, please request copies of the inaccessible ecological sciences documents from your Area Resource Conservationist and engineering practice documents from your Area Engineer. This bug does not impact all documents, please attempt to download before requesting copies.

Thank you for your patience as programmers work to fix these problems.

Selma Mascaro
