Good morning.

Partnerships are vital to the success of soil and water conservation in Missouri. The SWCP is placing a renewed emphasis on improving communication with our crucial partners. One way we are doing this is through the implementation of a periodic newsletter. This quarterly update is intended to communicate about important topics, and help partners get to know our staff better. The second issue is attached. For more information about any newsletter content, contact Jake.Wilson@dnr.mo.gov.

Thank you.
