
MS365 Licenses - Response needed by Friday, October 31st

From Matthews, Diane <diane.matthews@dnr.mo.gov>

Date Mon 10/27/2025 8:37 AM

To DNR.Soil and Water Conservation Districts staff <dnr.soilandwaterconservationdistrictsstaff@dnr.mo.gov>

Cc DNR.MGS SWC Staff <dnr.swcstaff@dnr.mo.gov>

Good morning,

The SWCP is aware that the version of excel included with the new online MS365 licenses does not support the use of macros. Macros are what make many of the NRCS planning sheets such as those used for cover crops and other seedings function. We have been working on a solution for several weeks and will be providing each SWCD with one license for the desktop MS applications that will enable these worksheets to function as intended. Below you will find a link to a form that each district must navigate to and fill out to let us know who in your district we should give the full license to. Once assigned, these cannot be moved unless there is employee turnover and the licensee's computer must be powered on and connected to the network in order for us to deploy the update. For any district that does not respond by this Friday Oct. 31, we will select who gets the license.
