**Subject:** RE: Actual Cost Database New Site is Now Functional

Good morning. Below is an email with the attachment from Ms. Lauren Cartwright in reference to the New Actual Cost Database.

Thank you,  
Soil and Water Conservation Program

*We'd like your feedback on the service you received from the Missouri Department of Natural Resources. Please consider taking a few minutes to complete the department's Customer Satisfaction Survey at <https://www.surveymonkey.com/r/MoDNRsurvey>. Thank you.*

All:

The new Actual Cost Database is now migrated and functional. You can access the database with the following link: <https://sharepoint.fsa.usda.net/states/missouri/actualcost/default.aspx>

Attached is a User's Manual to assist users to navigate the new database. However, I am available if needed to provide additional training or answer questions that might come up as staff start to use the new site.

Thank you to our FSA partner Steve Niemeyer for developing the new database site and working to make sure it has a similar feel as the old site.

If you have any question or concerns please let me know.

*Lauren*
