**Cc:** DNR.MGS SWC Staff  
**Subject:** Change to FY24 Advanced Allocation Amount

Good afternoon,

The Soil and Water Districts Commission has worked with program management to determine the best way to get additional cost-share dollars to the districts in order to develop and obligate additional FY24 contracts. The decision has been made to increase the amount of advanced allocation funding available to districts from 10% to 20% of the district's FY24 initial allocation. The increase correlates with the increase approved in the Senate and House of Representatives for the FY24 cost-share appropriation. The increase will be calculated on all resource concerns except Animal Waste Management and Nutrient & Pest Management. Districts can request the advanced funds in multiple resource concerns. The additional advanced allocation will give districts the opportunity to start additional projects if they have utilized the original advanced allocation.

An updated FY24 Advanced Allocation form has been placed on the SWCD Intranet page. The updated form will provide the available FY24 Advanced Allocation funds as of May 2, 2023 for each district. If a district has already received FY24 Advanced Allocation funding prior to May 2, 2023, then the form will automatically reflect what the district has remaining to request. The form must be signed by a board member and submitted to the program office email [soil&waterconservationprogram@swcd.mo.gov](mailto:soil&waterconservationprogram@swcd.mo.gov). Please keep in mind that the district MUST use the updated form for any requests submitted as of today.

If you have any questions, please contact your district coordinator.

Thank you.
