**Cc:** DNR.MGS SWC Staff  
**Subject:** FY23 Cost-Share Payment Status

Good afternoon!

As of this morning, just over \$37.4 million has been approved for payment to landowners. Additionally, districts have submitted contract payments for a total of \$3.8 million that are pending program office review. Program staff will work through the list of contract payments until we reach the \$40 million appropriation. Mostly likely, there are enough contract payments submitted to fully use the appropriation. If the district had any payments returned for corrections they will be reviewed based on when they are resubmitted. Once the appropriation has been reached, any remaining payments pending program office review will be returned to the district. Those contracts and any other where the practice was completed will have to be held until after July 1 to be paid from the FY24 cost-share appropriation. Further instructions will be sent on how the districts need to address those payments.

At this time, any contracts where the practice was started but not completed by the June 15 deadline need rolled over into FY24 or cancelled. If a district does not have enough unobligated funds in FY24 to cover the roll over contracts, please email April Brandt requesting additional funds.

If you have any questions, please contact your coordinator.

Enjoy the long weekend.

Thank you.
