Districts have until December 30, 2019 to provide written comments on the listed practices. When providing comments, the board and staff may want to consider the following questions for discussion purposes.

- What currently makes the practice successful and needs to continue?
- Are there any policy limitations that are prohibiting the practice from being implemented? If so, which policies?
- Does the district have any suggestions for improvements or changes to the current policies?
- Does the district have any suggestions on policies that need to be added to the practice?

Comments are not limited to answering the questions nor does the district have to provide comments on every practice. When submitting comments, make sure to indicate which practice the comments apply to. All comments received will be provided to the committee members. Please submit comments via email to soil&waterconservationprogram@swcd.mo.gov by December 30, 2019. Thank you.
