MEMORANDUM

2022-014

DATE: May 3, 2022

TO: All Soil and Water Conservation Districts

FROM: Kurt Boeckmann, Director 
Soil and Water Conservation Program

SUBJECT: Changes to DWC-01 Water Impoundment Reservoir Policy

The Commission made updates to the DWC-01 Water Impoundment Reservoir policy during their April 13, 2022 meeting. The policy change is effective July 1, 2022.

The Commission approved increasing the practice maximum from \$15,000 to \$20,000 per structure. The increase will be effective on new contracts board approved after July 1, 2022. If a contract has been submitted for program office review with the old maximum that is not board approved, the contract will need to be deleted and a new one created after July 1, 2022 in order to receive the \$20,000 maximum. Contracts that are board approved in FY22 and rolled over into FY23 with the \$15,000 maximum are not eligible for the \$20,000 maximum.

This practice policy change will be added to the cost-share handbook during the next handbook update. If you have any questions about this policy, please contact your district coordinator. Thank you.
