

MEMORANDUM
2023-016

DATE: June 30, 2023

TO: All Soil and Water Conservation Districts

FROM: Jim Plassmeyer, Director 
Soil and Water Conservation Program

SUBJECT: District Coordinator Assignments

Now that the Soil and Water Conservation Program is fully staffed at the District Coordinator position, there have been some updates made to the assigned counties for the district coordinators. The three newest coordinators are Myranda Gillispie stationed at the Program Office in Jefferson City, Ashley McDaniel stationed at the DNR Southwest Regional office in Springfield, and Ashley Taylor stationed at the DNR Southeast Regional office in Popular Bluff.

Due to the workload and travel time among the coordinators, the program assigned some districts a different coordinator. The coordinator assignments are effective July 1, 2023. Although district assignments for some coordinators are changing, the coordinators work closely together and will assist each other to ensure a smooth transition.

An updated map showing the coordinator assignments is attached to this memo and also has been updated on the SWCD Intranet page.

Along with the changes in the coordinator positions, there have been several changes in staff roles within the program. The program also was moved within the Department to the Missouri Geological Survey Division this past year. With the move and changes in the division, there is new division leadership overseeing the program. The Soil and Water Conservation Program's organizational chart has been updated on the SWCD Intranet page reflecting the changes in the structure of the program and attached.

If you have questions please contact your newly assigned district coordinator as designated on the updated map. Thank you.
