

The Missouri CRCL Project

Cover Crop Programs

There are four options designed for Missouri producer interested in adopting fall-planted cover crops. This includes two planting incentives and two incentives for cover crop management. The Missouri CRCL Project is funded by a \$25 million grant from the United States Department of Agriculture (USDA).

If you have questions, help is available via email at mocrcl@missouri.edu.

Rye-Soy: \$30 per acre

Diverse Covers: \$40 per acre
