Date Set for 13th Annual Customer Appreciation Day

Mark your calendars for Friday, March 11th for the 13th Annual Customer Appreciation Day.

INSIDE THIS ISSUE

- 1 Date set for 2016 ACAD
- 1 Environmental Day hosted by Smithfield Milan
- 2 Environmental Day Pics
- 3 NW Regional Envirothon
- 4 Poster Contest & Stewardship Week Theme Revealed
- 5 Welcome Sarah Wheeler, NRCS
- **5** Client Gateway
- **6** Prescribed Fire Workshop Mercer
- **7** Prescribed Fire Workshop Livingston
- **8** 2016 State WIA
- 8 The Parks, Soils and Water Sales Tax
- 9 Cost-Share Report
- 9 FY17 Allocation

10 Kids Corner

This year marks 49 years of conservation efforts put forth by the Grundy County Soil & Water Conservation District.

The District hosts an annual appreciation day every March to thank landowners for their conservation efforts, contractors for their work and the partnerships with NRCS and MDC.

As time draws near you can visit the website at

http://swcd.mo.gov/grundy/2016CustomerAppreciationDay.htm

Smithfield – Milan Environmental Team Hosts Environmental Day

The 9th Annual Environmental Day was held at a local county school on Thursday, October 22. This yearly event is sponsored by the Smithfield Milan Environmental Team.

The team demonstrates testing of turbidity, dissolved oxygen, temperature and pH from local lake waters. Students are then divided into teams so every student can have hands on experience with the testing.

After completion of testing the students are treated with pizza, pop and chips.

Thank you to the Smithfield Environmental Team for providing an educational experience to these students.

NW Regional Envirothon Teams State Bound April 28th

We had a great event at the beautiful Squaw Creek National Wildlife Refuge on Thursday, November 5, 2015 for our NW Regional Competition. Regional Schools/Teams that participated this year was Plattsburg, Norborne A, Norborne B, Maysville, Missouri Academy A, Missouri Academy B, South Nodaway A, South Nodaway B, North Mercer and an Alternate Team. Teams competed in Wildlife, Forestry, Soils, Aquatics, Current Issue and Oral Presentation. A variety of breakfast options started the day, midway thru competition the teams were able to break for Breadeaux Pizza and chips. After the last rotation was completed tests were taken to the scoring room to be graded, components calculated to find the top team in each resource area and the top 3 teams that will advance to State Competition on Thursday, April 28th, 2016.

The top resource scores this year: Forestry – Missouri Academy A and North Mercer (we had a tie), Wildlife – North Mercer, Aquatics – Missouri Academy B, Soils – Missouri Academy A, Current Issue – South Nodaway B and Oral Presentation – Missouri Academy A. Advancing to State: 3rd place – North Mercer, 2nd place – South Nodaway A and 1st place – Missouri Academy A.

Local Soil & Water Conservation Districts that donated and supported this competition were: DeKalb, Grundy, Ray, Nodaway, Daviess, Harrison, Holt & Carroll.

Local Companies/Organizations that donated and supported this competition were: United Cooperatives Inc, Platte-Clay Electric Cooperative Inc and Pepsico – Pepsi Beverages Company.

Special thanks to the Missouri Envirothon for their support.

This year Smithfield - Hog Production Division Missouri sponsored the event with t-shirts for competition day. For this generous support we thank you!

The Envirothon is an amazing program for the youth of our communities. To find out more about the Envirothon you can visit the following links:

Poster Contest and Stewardship Week Theme Revealed

In 1955, the National Association of Conservation Districts began a national program to encourage Americans to focus on stewardship. Stewardship Week is officially celebrated from the last Sunday in April to the first Sunday in May. It is one of the world's largest conservation-related observances.

The program relies on locally-led conservation districts sharing and promoting stewardship and conservation activities. Districts provide conservation and stewardship field days, programs, workshops and additional outreach efforts throughout their community to educate citizens about the need to care for our resources. Many district activities extend beyond the one week observance to include an entire year of outreach.

The Stewardship concept involves personal and social responsibility, including a duty to learn about and improve natural resources as we use them wisely, leaving a rich legacy for future generations.

One definition of Stewardship is "the individual's responsibility to manage his life and property with proper regard to the rights of others." E. William Anderson suggests stewardship "is essentially a synonym for conservation."

Stewardship Week helps to remind us all of the power each person has to conserve natural resources and improve the world. When everyone works together with their local conservation district, that power continuously grows. We have seen these good deeds multiply across the nation's network of conservation districts and the results are spectacular!

When the land does well for its owner, and the owner does well by his land—when both end up better by reason of their partnership—then we have conservation. - Aldo Leopold

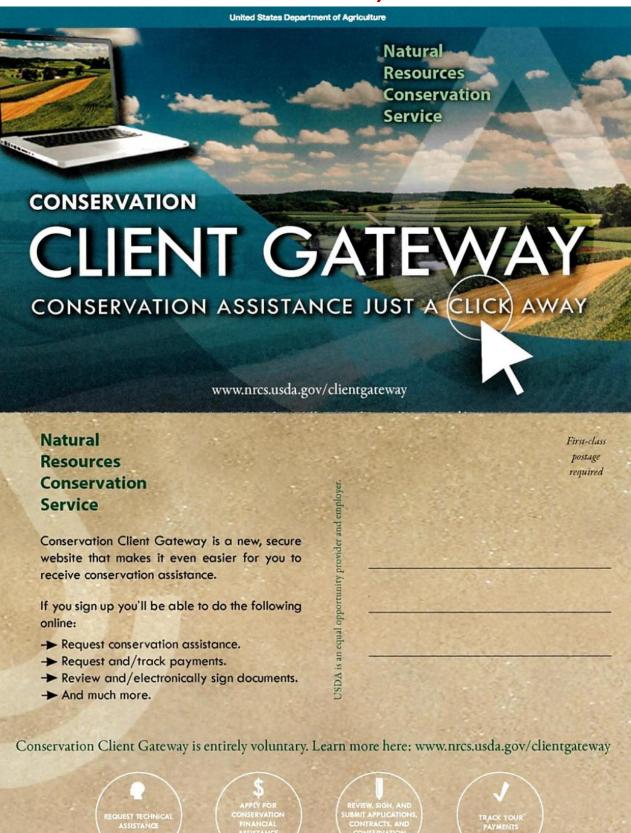

Stewardship week each year is always the last Sunday in April to the first Sunday in May.

Welcome Sarah Wheeler, NRCS Staff

Sarah Wheeler joined the NRCS staff October 19, 2015 as a Contract Specialist. Sarah received her bachelor's degree in Biology from Trevecca Nazarene University. She is a former high school science teacher. Sarah resides in Princeton with her husband, Dusty. She is excited to begin working out of the Trenton office for the FOSA area.

Client Gateway

Prescribed Fire Workshop – Mercer County

Prescribed Fire Workshop

for CRP Grassland & Wildlife Management presented by: the Missouri Department of Conservation

Saturday March 26, 2016 9:00 AM

Lake Paho Conservation Area

15643 Fathom Street, Princeton, MO

Directions: From <u>Princeton</u> go 4 miles west on Hwy 136, turn north on Fathom and go 1/8 mile to the Lake Paho Headquarters. From <u>Bethany</u> go 25 miles east on Hwy 136 to Fathom.

WHAT YOU WILL LEARN

Achieving Land Use Objectives with Prescribed Fire

- History of Fire
- Prescribed Fire Benefits and Specific Burn Timing
- Fire Behavior
- Planning a Prescribed Burn

Considerations

- Prescribed Fire Scenarios
- Fire Equipment and Utilization
- Fire Safety
- Organizing Burn Teams/Cooperatives

Resources

- Equipment
- Burn Plan Assistance

We will begin at 9 AM with a classroom session, a **hands-on** demo burn to follow - weather permitting. Landowners should bring leather gloves and leather boots.

Pre-registration is required by Monday March 21st.

Contact Scott Roy @ 660/359-5685 ext 114.

Materials, refreshments & lunch will be provided.

Prescribed Fire Workshop – Livingston County

Prescribed Fire Workshop

for CRP Grassland & Wildlife Management presented by: MDC Private Land Service

Saturday April 2, 2016 9:00 AM

Carlton House Poosey CA

Directions: From Chillicothe travel west on 190 for 9.5 miles; turn north on U hwy. Travel north 4.5 miles; turn east onto county road 510 (LIV 510). Go 1 mile east and turn into driveway on north side. If you make it to the lake you've gone too far.

The Parks, Soils and Water Sales Tax

The Parks, Soils and Water Sales Tax

BEFORE THE PARKS, SOILS AND WATER SALES TAX

In the 1930s,
 Americans realized how devastating soil erosion could be as the Dust Bowl swept across the nation, relocating an estimated 300 million

tons of soil. Missouri had the highest rate of erosion in the nation, which led to the creation of the Missouri Soil and Water Conservation Districts in 1943.

 In 1982, Missouri was losing soil at a rate of 10.8 tons per acre each year on cultivated cropland.

SOIL EROSION IN MISSOURI

- Due to the efforts of the Missouri Soil and Water Conservation Program, Missouri has saved more than 177 million tons of soil over the past 30 years.
- Of Missouri's 44.6 million acres of land, 14.8 million are considered cropland. With almost half of Missouri's cropland soil classified as highly crodible, controlling and minimizing erosion is a significant challenge for Missouri's farmers.
- Erosion can cause problems by washing away the productive topsoil, which adversely affects local and national food supplies and economies.
- Soil erosion caused by stormwater runoff carries fertilizers away from the fields and into the waterways.
 The soil entering the waterway can cause water quality problems that continue far downstream.
- Eroded soil settling along the shores and beds of streams, lakes and rivers can lead to the destruction of valuable aquatic habitat such as fish spawning areas.
- Soil and contaminated water entering drinking water supply systems each year can increase water treatment costs, which raises utility bills for Missouri households.
- Revenues from the Parks, Soils and Water Sales Tax have resulted in Missouri having the greatest soil erosion reduction rate of any other state with more than 10 million acres of cultivated cropland.

HOW WE HELP

- The Department of Natural Resources has provided over \$660 million to Missouri agricultural landowners to implement more than 220,000 conservation practices using revenues from the Parks, Soils and Water Sales Tax.
- Grants to Districts: Each of the 114 soil and water conservation districts in Missouri receive district grants.
 These grants are used by local district boards to fund technical assistance for landowners and provide information and educational programs.
- Cost-Share Program: This program shares the cost of implementing conservation practices between the state and landowners. It provides partial reimbursement of the cost for the installation of soil and water conservation practices that prevent or control excessive erosion and improve water quality. These practices include buffers, grazing systems, cover crops and sediment basins.
- Research and Monitoring: The program provides funding for research and water quality monitoring.
 These efforts identify new methods for soil and water conservation practices that produce the best results for preventing erosion and protecting water quality.

PUBLIC INPUT

 The Soil and Water Districts Commission holds meetings, usually six times a year, that are open to the public. The commission develops statewide policies in accordance with their Soil and Water District's

input and helps local landowners with their soil and water conservation efforts.

 County Soil and Water District Boards usually hold monthly meetings that are open to the public.

Cost-Share Report

Cost-Share Report as of 1-21-16

| REGULAR COST-SHARE ALLOCATIONS/PRACTICES FY2016 | | | | |
|---|---|----------|--------------------------------|--|

Kids Corner – Recipe Easter Cookies

Ingredients

- 1 ½ cups butter, softened
- 1 cup powdered sugar
- ¼ teaspoon salt
- 1 teaspoon vanilla extract
- 2 ¾ cups all-purpose flour, sifted
- Simple Icing
 - 6 cups powdered sugar
 - 2 tablespoon meringue powder
 - ∘ ½ teaspoon lemon juice
 - Food coloring or paste

Directions

- Beat butter, sugar & salt on medium speed until creamy. Add vanilla; beat until well blended. Gradually add flour, beating on low speed (dough will be soft).
- Divide dough into 2 equal portions, wrap each portion with plastic wrap and flatten into a disc. Chill 2 to 24 hours.
- Preheat oven to 350°. Unwrap 1 dough disc on well-floured surface. Cover with a large piece of plastic wrap and roll to ¼ inch thickness; cut into desired shapes with cookie cutters. Place 1 inch apart on ungreased baking sheet. Chill 15 minutes. Repeat procedure with remaining dough disc.
- Combine strawberry juice, 6 cups water, 1 cup sugar and lemon juice in a large pitcher; still until blended. Chill before serving.
- Bake at 350° for 14 to 17 minutes or until edges are lightly browned. Cook 5 minutes on baking sheet, transfer to wire racks and let cool completely (30 minutes). Decorate cookies with Simple Icing. Let stand 1 hour or until icing is firm.

Simple Icing Directions:

 Whisk powdered sugar, meringue powder, lemon juice and 6-8 tablespoons water until smooth. Divide mixture into 5-6 small bowls; tint icing in each bowl with desired food coloring. Stir until blended.

Mission Statement

The purpose of the Grundy County Soil and Water Conservation District (SWCD) is to construct and carry out a complete soil and water conservation program on all lands within Grundy County, Missouri. The district supervisors will work with all individuals, organizations and agencies interested in saving, maintaining and improving soil and water resources within the district.

Non-Discrimination Statement

"The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers. If you believe you experienced discrimination when obtaining services from USDA, participating in a USDA program, or participating in a program that receives financial assistance from USDA, you may file a complaint with USDA. Information about how to file a discrimination complaint is available from the Office of the Assistant Secretary for Civil Rights. USDA prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex (including gender identity and expression), marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) To file a complaint of discrimination, complete, sign and mail a program discrimination complaint form, available at any USDA office location or online at www.ascr.usda.gov, or write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call toll free (866) 632-9992 (voice) to obtain additional information, the appropriate office or to request documents. Individuals who are dear, hard of hearing, or have speech disabilities may contact USDA through the Federal Relay service at (800) 877-8339 or (800) 845-6136 (in Spanish). USDA is an equal opportunity provider, employer, and lender. Persons with disabilities who require alternative means for communication of program information (e.g., Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD)."
